Summary

Information Systems Director and software leader with 4+ years delivering business-critical systems, now focused on information-system structuring, digital transformation, ERP enablement, applied AI workflows, and executive reporting.

Core Expertise

IS Transformation: IS governance, digitalization programs, document control, reporting, change enablement

Business Systems & ERP: Odoo transformations, logistics and finance workflows, migration planning, user enablement

Data & Applied AI: SQL, Pandas, scikit-learn, KPI pipelines, reporting automation, lightweight AI workflows

Product & Consulting: requirements translation, stakeholder communication, technical documentation, training

Experience

Compagnie Prestige Immobilier (CPI), Information Systems Director

Dakar, Senegal

July 2026 – present

- Leads the structuring of the IS function and a digital transformation program.
- Defines the Microsoft 365 + Odoo operating backbone for business workflows, document management, collaboration, and executive reporting.
- Owns a 6-month roadmap covering governance, security, backup, process traceability, and user adoption.

LIC, Product, Data & Solutions Consultant

Dakar, Senegal / Remote

Aug 2025 – present

- Continues part-time consulting on product scoping, business analysis, documentation, and technical-commercial alignment.

G&G Professional Services, Technical & Data Consultant

Dakar, Senegal

July 2025 – June 2026

- Led digitalization and system-evolution engagements combining business scoping, technical implementation, and operational coordination for multiple clients.
- Delivered EBS operational-system developments across logistics, purchasing, sales, accounting, CRM, website, and mobile service flows, covering 6 warehouses and 30 routes.
- Led Odoo migration programs to v18 and trained around 100 users to improve data quality and process discipline.

Teksi, Freelance Full-Stack Developer

Montreal, Canada / Remote

Apr 2025 – Apr 2026

- Built a Student Management Service using Spring Boot, Angular, Docker, and DigitalOcean on a multi-tenant architecture.

Education

Dakar Institute of Technology, Master's in Artificial Intelligence

Mar 2026

Higher Institute of Computer Science (ISI), Bachelor's in Software Engineering

Sept 2025

Professional Certifications

DataCamp • AI Engineer for Developers Associate: applied ML engineering workflows, model integration, and practical AI implementation patterns.

Google/Coursera • Google AI Professional Certificate: structured grounding in applied AI concepts and product-oriented use cases.

Linux Foundation (LFD114) • Porting Software to RISC-V: software portability and systems-level engineering fundamentals.
