Summary

Software engineer and technical consultant with 4+ years delivering business-critical systems, now expanding into applied AI workflows and technical architecture across ERP, data, and operational platforms.

Core Expertise

- Systems Engineering:** API design, multi-tenant architecture, integration workflows, reliability-focused delivery
- Business Systems & ERP:** Odoo transformations, logistics and finance workflows, migration planning, user enablement
- Data & Applied AI:** SQL, Pandas, scikit-learn, KPI pipelines, reporting automation, lightweight retrieval workflows
- Product & Consulting:** requirements translation, stakeholder communication, technical documentation, training

Experience

- G&G Professional Services**, Technical & Data Consultant Dakar, Senegal
July 2025 – present
- Leads digitalization and system-evolution engagements combining business scoping, technical implementation, and operational coordination for multiple clients.
 - Delivered EBS operational-system developments across logistics, purchasing, sales, accounting, CRM, website, and mobile service flows, covering 6 warehouses and 30 routes.
 - Led Odoo migration programs to v18 for CDA and Sentech, preserving historical continuity and aligning workflows with current operational requirements.
 - Trained around 100 users across logistics, purchasing, and inventory workflows to improve data quality and process discipline.
- LIC**, Product, Data & Solutions Consultant Dakar, Senegal / Remote
Aug 2025 – present
- Supports product scoping, business analysis, documentation, and technical-commercial alignment for e-commerce and business management products.
 - Structures KPI and decision-support workflows to connect business requirements with implementation constraints.
- Teksi**, Freelance Full-Stack Developer Remote
Apr 2025 – present
- Building a Student Management Service using Spring Boot, Angular, Docker, and DigitalOcean on a multi-tenant architecture designed for per-organization isolation.

Education

- Dakar Institute of Technology**, Master's in Artificial Intelligence Mar 2026 – present
- Higher Institute of Computer Science (ISI)**, Bachelor's in Software Engineering Sept 2025

Professional Development (Selected)

- DataCamp — AI Engineer for Developers Associate: applied ML engineering workflows, model integration, and practical AI implementation patterns.
- Google/Coursera — Google AI Professional Certificate: structured grounding in applied AI concepts and product-oriented use cases.
- Linux Foundation (LFD114) — Porting Software to RISC-V: software portability and systems-level engineering fundamentals.
