Executive Profile

Technical consultant and software engineer delivering ERP and operational systems in client-facing environments, with 4+ years of hands-on implementation and growing focus on applied AI-enabled decision workflows.

Consulting Experience

G&G Professional Services, Technical & Data Consultant

Dakar, Senegal
July 2025 – present

- Owns end-to-end client missions from business scoping to technical rollout across digitalization, integration, and system evolution programs.
- Implemented mission-critical developments for EBS across logistics, purchasing, sales, accounting, CRM, website, and mobile service pathways in a multi-site operational context.
- Directed Odoo migration tracks to v18 for CDA and Sentech, balancing continuity of historical data, process redesign, and user adoption constraints.
- Delivered training and operational handover to approximately 100 users, improving process clarity and data discipline.

LIC, Product, Data & Solutions Consultant

Dakar, Senegal / Remote
Aug 2025 – present

- Supports product and solution framing, converting business objectives into implementation-ready specifications and technical trade-off decisions.
- Contributes to KPI and reporting structures used for stakeholder alignment in e-commerce and business-management initiatives.

Teksi, Freelance Full-Stack Developer

Remote
Apr 2025 – present

- Developing a multi-tenant Student Management Service and aligning architecture, API design, and deployment model for maintainable long-term scale.

Technical Positioning

Systems & Architecture: API-first design, multi-tenant models, integration thinking, maintainability and portability

ERP & Operations: Odoo 18 delivery, process controls, migration strategy, training and adoption

Data & Applied AI: SQL, Pandas, scikit-learn, KPI engineering, reporting automation, practical AI augmentation

Consulting Interface: client workshops, requirements synthesis, technical documentation, delivery coordination

Education

Dakar Institute of Technology, Master's in Artificial Intelligence

Mar 2026 – present

Higher Institute of Computer Science (ISI), Bachelor's in Software Engineering

Sept 2025

Professional Development (Selected)

DataCamp — AI Engineer for Developers Associate (applied ML workflow integration focus).

Google/Coursera — Google AI Professional Certificate (applied AI foundations for product contexts).

Linux Foundation (LFD114) — Porting Software to RISC-V (systems portability fundamentals).

Languages

Working Languages: French, English, Wolof, Pulaar (fluent); Arabic, Spanish (intermediate)
